

DURABLE. FUNCTIONAL. **RELIABLE.**

CONVEY-ALL[™]

DURABLE

At Convey-All™, we use heavy-duty components, quality materials and precision manufacturing techniques. When you need a product that is durable, rugged and can be depended on, choose Convey-All™.

AGRICULTURE

Convey-All™ has been revolutionizing agricultural handling for over 35 years. Our products are built to reduce down time and to be trusted in the harshest seasonal conditions.

FUNCTIONAL

Our no-nonsense, straight forward designs make our products simple and operator friendly, assuring versatility, convenience and functionality.

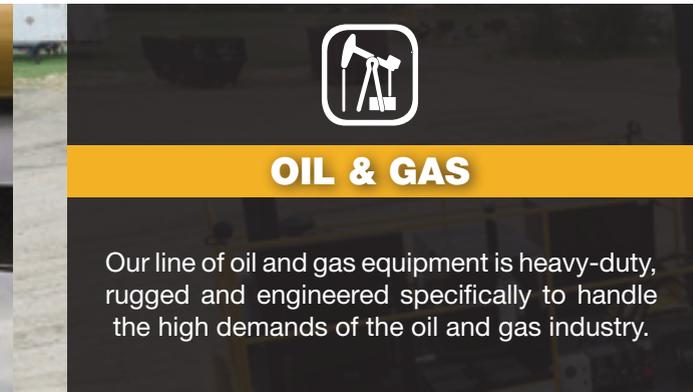

COMMERCIAL

Your site is unique. Let our team custom design and manufacture the perfect solution for you.

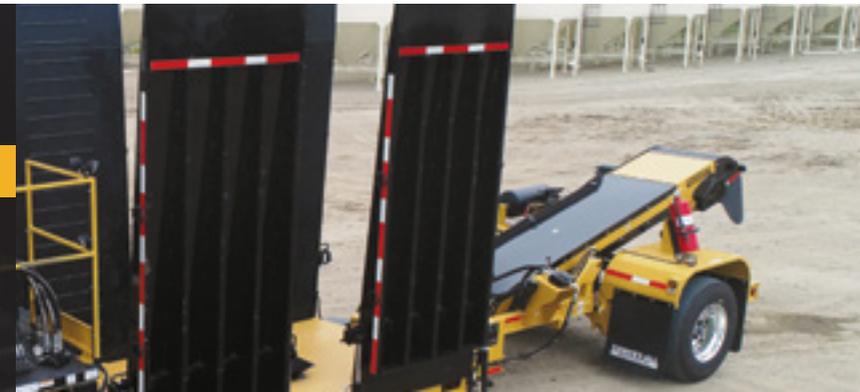

RELIABLE

With over 35 years experience, Convey-All™ understands the needs and expectations of our customers. We are committed to developing the most usable, innovative and quality products with service excellence for our customers.

OIL & GAS

Our line of oil and gas equipment is heavy-duty, rugged and engineered specifically to handle the high demands of the oil and gas industry.

BIN FILL CONVEYORS

LEAVE THE TRACTOR IN THE SHED WITH **CONVEY-ALL'S SELF-PROPELLED, SELF-CONTAINED BIN FILL CONVEYORS**

1690 WITH SWING OUT PICTURED

Convey-All™ has a complete range of Bin Fill Conveyors- a size for any job. Our self propelled, long reach tube conveyors are great for filling bins or making large piles.

Convey-All™ conveyors are designed to be efficient and simple to use. The engine and control station are set low for easy access. The undercarriage is rugged

and heavy duty, using structural steel and fabricated for bolt-together durability. Combine our Bin Fill Conveyors with a Convey-All™ Transfer Conveyor or Swing Out for ultimate efficiency.

1600 SERIES | 10" tube, 16" belt, up to 9,000BPH
2200 SERIES | 14" tube, 22" belt, up to 12,000BPH

TRUCK LOAD CONVEYORS

OUR FULLY LOADED **TRUCK LOAD (TL)** MODELS ARE **FULLY HYDRAULIC & SELF-PROPELLED**

1645-TL PICTURED

Our series of Truck Load conveyors are perfect for moving product from a bin to loading a truck or trailer.

Our fully loaded Truck Load (TL) models are self-propelled, conveniently moving the conveyor to the truck, rather than maneuvering the truck to the conveyor. Being self-contained and fully hydraulic

eliminates troublesome pulleys, chains or sprockets.

1200 SERIES | 10" tube, 12" belt, up to 3,500BPH
1600 SERIES | 10" tube, 16" belt, up to 9,000BPH
2200 SERIES | 14" tube, 22" belt, up to 12,000BPH

COMMERCIAL SEED TENDERS

MAXIMIZE YOUR SEEDING EFFICIENCY WITH CONVEY-ALL COMMERCIAL SEED TENDERS

CST-1550 PICTURED

Our commercial seed tenders have up to six stainless steel lined compartments. . These heavy-duty tenders are designed to change the way you haul seed and fertilizer. Perfect for large operations or agri-retailers, our line of CST's can reduce your downtime significantly while providing the versatility to use it year round . Our trailer-mounted series are powered by a diesel engine,

with self-contained hydraulics. They have a load capacity of up to 1,550 cubic feet and unload at a rate of 2 tons per minute.

Convey-All offers truck mounted tenders in select regions. These tenders come in 2 and 3 compartment configurations and fit a standard 34" truck frame.

BEAN TENDERS

The Convey-All™ Bean Tenders are a fast, effortless way to fill any planter; including centre fill models. The unload conveyor has all the swing and reach required to fill a 16 row, 30" spacing planter, or a 24 row, 22" spacing planter with one setup.

Every bean tender comes with a 2-button remote throttle control. A full remote control is available for all the tenders, except the PT-100. The deck mount frame offers the convenience of mounting your tender onto a trailer, truck bed, or simply order your tender mounted on a custom Convey-All™ trailer.

Custom Site Design | Convey-All™ offers a full line of Surge Bins, Scale Towers, Underbin Conveyors & Paddle Belt Conveyors for your seed site. Our team can custom engineer our products to your specifications, maximizing your site performance.

Paddle Belt & Underbin Conveyors | Handle your seed gently and effectively with Convey-All's series of Underbin and Paddle Belt Conveyors. Convey-All offers various underbin, transport incline and floor mounted incline conveyors, custom designing the configuration to your exact needs.
