INTRODUCING THE 1650-TL

OILSEEDSERIES

DURABLE. FUNCTIONAL. **RELIABLE.** **CONVEY-ALL®**

PERFORMANCE WITHOUT COMPROMISE.

Cereals, pulses, fertilizer and now... OILSEEDS. The All New 1650-TL takes all the features that makes a Convey-All the most durable, functional, and reliable conveyor on the market, and adds the versatility of handling oilseeds such as canola or hemp.

The addition of extra flashing and scrapers along the belt keeps the fine material on the belt and prevents build up. Unlike other 'Canola Approved' options where capacity is sacrificed, the OILSEED Series offers 7,900BPH, keeping your operation running.

The 1650-TL is fully equipped with Convey-All's signature hydraulic drive and mover kit. Being self-contained and fully hydraulic means no dealing with belts, pulleys, chains or sprockets.

Under Carriage	Axle Width	Transport Height	Transport Length	- 15° -		- 20° -		- 25° -		- 30° -	
				Discharge Height	Length						
A-Frame	8' 4"	11' 5"	53' 7"	n/a	n/a	14' 5"	46'	18' 8"	44' 8"	22' 10"	43'
